DECISION

Mineral Materials Site Inactive – Case Expired and Pending Closure

The Free Use Permit (FUP) for extraction of mineral materials, sand and gravel, at the location north of the Cricket Mountains was authorized by the Fillmore Field Office, Bureau of Land Management (BLM), on January 26, 1996. The FUP pit is located southwest of the Clear Lake highway junction and Pot Mountain, in Section 09 of Township 20 South, Range 09 West. The FUP authorization for this location expired on January 26, 2006. The BLM case file number for your FUP is UTU-72881. Please refer to this number in future correspondence.

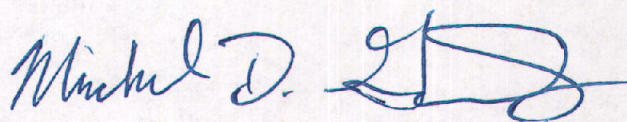

A field inspection by a member of the Fillmore Field Office staff on November 30, 2012 found no evidence of extraction activity in recent years. The former surface disturbance area now has sparse mature vegetation. The rims of the pit location have adequate slopes, and the site also has satisfactory earthwork on other surfaces.

A small secondary power pole remains at the site near the entrance. Please remove the pole from the location as soon as possible.

The case file for this former Free Use Permit will be closed when the power pole is removed. The BLM considers the site to be otherwise adequately reclaimed because the disturbance surfaces have been regraded and now have mature native vegetation.

If you have any questions, please contact Duane Bays, BLM Fillmore Field Office Natural Resource Specialist, at 435-743-3115, or Jerry Mansfield, BLM Fillmore Field Office Geologist, at 435-743-3125.

Sincerely,
